Preface

Our education system effectively provides a base for learning the English language and helps students to understand the underlying concepts of grammar and linguistics. In addition, this learning material provides the functional approach of language teaching, understanding and application of various concepts to students.

This workbook is designed to enable a holistic learning of the English language, and is an efficient tool to achieve comprehensive success in the ISFO – English Olympiad.

The main aim of this workbook is to assist students in developing and improving their ability to address questions on varying aspects of language learning.

This book consists of five sections for all-round preparation for the talent exams:

- **Section A (Vocabulary):** This section helps to develop various aspects of vocabulary, word order and punctuation.
- **Section B (Grammar):** Questions related to various concepts of English Grammar are included in this section. Students stand to gain in identification, understanding and analysis of the concepts.
- **Section C (Reading & Writing):** Here, students get to solve questions regarding a variety of reading comprehension passages in English. For effective communication, specialised expressions are used for different situations. This section helps practise these responses for various situations using appropriate expressions and inference of any statement.
- **Section D (BrainBox):** This section deals with testing the Higher Order Thinking Skills (HOTS) base on the entire syllabus.

Sample test papers for further practice and answer keys have been provided to augment the learning process.

Reading Comprehension

Read the following unseen passage and answer the questions that follow.

In olden times there lived a King, who was so cruel and unjust towards his subjects that he was called The Tyrant. One day he called his people together and said to them, — “My dear subjects, the days of my tyranny are over, for I have decided to rule justly and well.”

One of his subjects asked him, —

“Your Majesty, how did you have this change of heart?”

The King replied, —

“As I was galloping through my forests one afternoon, I caught sight of a hound chasing a fox. The fox escaped but he had been bitten by the dog so badly that he would be lame for life. The hound met a man who threw a stone at him, which broke his leg. The man had not gone far when a horse kicked him and broke his leg. And the horse later fell into a hole and broke his leg. Here I came to my senses, and resolved to change my rule. For who does evil will sooner or later be overtaken by evil.”

Read the following passage and answer the questions below it.

Dolphins are considered as one of the most friendly beings on the planet. There have been countless stories of them rescuing drowning people, some even date back to the Roman Empire. Recent research suggests that the communities they live in are far more complex than we earlier believed. They have been seen protecting the ill and the weak members of their community. They even take special care of the pregnant mothers in their group. They are known to cooperate, learn, adapt and even grieve for other dolphins. There have been debates going on about dolphins' capability for abstract thinking and self awareness. Researchers have not found conclusive evidence to support either claim, and the debate is far from over.

16. Stories of dolphins helping drowning sailors have been common since _____.
a. the twentieth century b. since forever
c. Roman times d. none of these

17. It is clear from the passage that dolphins _____.

- a. are intelligent creatures
